*The numbers following each crop are approximate days from seed sowing to maturity. Range in parentheses () shows variations in maturity between crop varieties or cultivars.

The purpose of the **Year-Round Home Garden Planting Chart** is to show activities in the garden by season.

The closer to the bottom of the box a vegetable or activity is listed, the closer to the end of the month it should be planted or performed.

To produce tomato, broccoli, cabbage and cauliflower for fall crops, sow seed about four weeks earlier than suggested transplanting date.

This planting guide was prepared for persons in central Arkansas zones B and C. Adjust planting dates earlier or later depending on your particular zone.

For additional gardening information, visit the University of Arkansas at Pine Bluff, Cooperative Extension Specialists, see your County Extension Agent, or log on to the University of Arkansas Division of Agriculture Cooperative Extension website at www.uaex.edu.

Mean Date of Last Spring Freeze

Zone	Mean Date
A	March 20
B	March 27
C	April 1
D	April 10
E	April 20

Mean Date of First Fall Freeze

Zone	Mean Date
A	November 15
B	November 7
C	October 30
D	October 24
E	October 20

Acknowledgment is given to Dr. Hazell Reed, formerly at the University of Arkansas at Pine Bluff, for the original concept of the Year-Round Home Garden Planting Guide.

The University of Arkansas at Pine Bluff is fully accredited by The Higher Learning Commission, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604, 1-800-621-7440/FAX: 312-263-7462.

A University of Arkansas COOPERATIVE EXTENSION PROGRAM, University of Arkansas at Pine Bluff, United States Department of Agriculture and County Governments Cooperating

Issued in furtherance of Extension work, Act of September 29, 1977, in cooperation with the U.S. Department of Agriculture, Dr. Bruce McGowan, interim dean/director, 1890 Research and Extension Programs, Cooperative Extension Program, University of Arkansas at Pine Bluff.
