Internships

All students must complete two summers as interns with a government regulatory agency or private industry. The internships help students narrow their fields of interest and provide valuable work experience for entry into the job market. The advisors and career services assist students with placement for summer internships.

REGULATORY SCIENCE CENTER OF EXCELLENCE

The USDA Center of Excellence in Regulatory Science functions in a multi-disciplinary environment that merges the experience of university faculty and federal agencies in conducting research and outreach education that advances understanding of and compliance with federal statutes. The Center prepares students and professionals to develop regulatory strategies in agriculture, environmental biology, and industrial health and safety.

The Regulatory Science Program is offered at both the Pine Bluff and North Little Rock campuses. The general education requirements and regulatory science courses can all be taken at either the North Little Rock site or the University of Arkansas at Pine Bluff campus.

The Degree

The Bachelor of Science degree program is offered with three options:

- **Agriculture**
- **Environmental Biology**
- **Industrial Health and Safety**

The Program

As part of the program, and depending on the degree option, you'll take courses in:

- Biostatistics
- Quality Assurance of Grain and Meat Products
- Plant Pathology
- Agricultural Economics
- Introduction to Epidemiology
- Environmental Science
- Risk Communication and Assessment
- Administrative Law
- Industrial Safety Management
- Codes, Specifications and Laws
- Occupational and Environmental Health
- Quality Control

Rewarding Careers

Program graduates qualify for entry-level positions with government agencies and private industry such as:

- Occupational Safety and Health Administration
- Food and Drug Administration
- Environmental Protection Agency
- Arkansas State Plant Board
- Animal and Plant Health Inspection Service
- Arkansas Department of Health
- Grain Inspection, Packers and Stockyard Administration
- National Center for Toxicological Research
- Industrial and Manufacturing Plants
- Public Health Departments
