

Dr. Uttam K. Deb

Dr. Uttam Deb is an Associate Professor of Aquaculture and Fisheries Economics at the Department of Aquaculture and Fisheries, University of Arkansas at Pine Bluff (UAPB), USA. He is involved in teaching and research. His current research studies focus on the competitiveness of U.S. aquaculture in the global seafood system, global trade in fish and fishery products, understanding consumers' willingness to pay for convenient and safe seafood products, and quantifying the impacts of wetlands in the USA. He is developing an ecological monitoring and assessment framework for the NRCS wetlands (ACEP-WRE) Program. He is also studying the economic feasibility and profitability of fish production technologies developed in the UAPB research laboratories.
