

Assistant Professor – Chemistry
Department of Chemistry & Physics

The University of Arkansas at Pine Bluff is a state supported 1890 land grant HBCU with a diverse student population, competitive degree offerings and stellar faculty. It is located 44-miles south of Little Rock, the state capital of Arkansas.

Job Summary:

The University of Arkansas at Pine Bluff invites applicants for a full-time, nine-month, and tenure-track faculty position as an assistant professor of chemistry. Desired areas of expertise are Forensic, Analytical and Physical chemistry in the Department of Chemistry and Physics in the School of Arts and Science to begin in the Fall of 2017. The successful candidate will help oversee the forensic, analytical and physical chemistry emphasis. The candidate will be expected to engage in teaching, research, service, and professional activities; contribute to the growth and development of the department, school, and university through recruitment activities; serve on department, school, and university committees; and participate in school activities, including student advisement.

Duties and Responsibilities:

Teach undergraduate and graduate courses and labs in forensic, physical and analytical chemistry; work with undergraduate and graduate students to conduct research; obtain extramural funds for research and publish in peer-reviewed journals; serve on thesis committees; participate in curriculum development; participate in student advisement; assist in building and maintaining professional relationships with local, regional and national laboratories, law enforcement and accreditation agencies.

Minimum Qualifications:

Ph.D. in chemistry, forensic chemistry, physical, analytical chemistry or a closely related discipline from an accredited university (If PhD is pending, degree must be completed within first year of appointment.)

- a. Demonstrated potential for undergraduate and graduate teaching
- b. Demonstrated potential to establish a research program and acquire external funding
- c. Demonstrated ability to work effectively with students, faculty, and staff

Preferred Qualifications:

- a. Minimum of two years of work experience in forensic science or related field
- b. Ability to teach undergraduate courses in drug identification, forensic technology, instrumental analysis, forensic science policies and procedures, chemical analysis, physical chemistry and related areas.
- c. Experience maintaining and troubleshooting chemical instrumentation and laboratory equipment

Salary: Commensurate with and depending upon qualifications and experience.

Fringe Benefits: Paid leave per University policy, group health, life, disability, and retirement benefits.

Application Process: Interested individuals should submit a letter of application, curriculum vitae, official transcripts and three letters of recommendation to:

Chair, Search Committee
Assistant Professor of Chemistry
Human Resources Department
University of Arkansas at Pine Bluff
1200 N. University Drive
Mail Slot #4942
