

## Isolation in Student Health Services Annex

I acknowledge that I'm being placed in isolation by the Arkansas Department of Health in Student Health Services Annex for testing positive for COVID-19. By doing so, I agree to the following:

- I agree to remain in daily contact with the UAPB Student Health Clinic (SHC) by logging into my patient portal on the SHC website and filling out the isolation questionnaire every day until I'm released from isolation by the Arkansas Department Health. I also agree to talk with the Health Services staff when they call or text me.
- I will also fully cooperate with the Arkansas Department of Health and to communicate with them on a regular basis if they request it.
- I will cooperate with the UAPB Student Health Clinic team to treat my symptoms of Covid-19 during regular clinic hours.
  - If my symptoms worsen during regular student health clinic hours, I will call them at (870) 575-7106 to notify them.
  - If my condition deteriorates after hours and I develop symptoms such as difficulty breathing, uncontrolled nausea/vomiting, unusual weakness or confusion, or any other symptoms that rapidly worsen, I will call the Campus Police at (870)575-8102 and they will arrange for ambulance transportation to the local emergency room. I will also mention to the Campus Police that I have Covid-19.
- I will remain within my assigned housing until my period of isolation is completed and will not go outside the building except to use predesignated areas approved by the university during my isolation.
- I will not invite visitors into my building or onto the property while I'm in isolation. The only exception is to allow someone to drop off medicines or personal items to me outside of the the building (when possible) without allowing them to stay and visit.
- I will wear a facial covering at all times and will attempt to remain 6 feet away when UAPB staff has to enter my building. Such instances may include a healthcare worker, maintenance personnel, food service worker, etc.
- I acknowledge that failing to comply with the above requirements could result in me being asked to leave Student Health Annex, and to complete my isolation somewhere else off campus.
