Re: Campus Closed Monday; Employees to Continue Working Remotely

The University of Arkansas at Pine Bluff will be closed to the public on Monday, March 1, 2021 for major repairs resulting from the sub-freezing temperatures experienced during the recent historic winter weather storm. Employees are asked to continue working remotely on Monday. As you are aware, the residence halls returned online over the weekend. However, several academic and extracurricular buildings are in need of additional repairs to their HVAC and fire suppression systems.

We appreciate your patience as we work to return the campus to normal operations.
