

**MEMORANDUM**

To: Faculty, Staff, and Student  
From: Laurence B. Alexander, J.D., Ph.D.  
Date: February 25, 2021  
Re: Campus Remains Closed

Liberty Utilities Co. announced Thursday that its water pressure had returned to the normal range. However, before employees return to the University of Arkansas at Pine Bluff, we need to make sure all buildings are inspected and cleaned. We also need to have the Pine Bluff Fire Department examine the fire suppression system. At this time, we are working toward the goal of bringing all employees back on Monday.

Therefore, UAPB will remain closed to visitors on Friday, while employees continue to work remotely. Classes also will continue virtually.

We appreciate the patience of the entire university community as we navigate the continuing effects of the Pine Bluff low-water pressure crisis.

Please continue to monitor the Campus Bulletin and UAPB Website for further updates.
