Re: Update on Campus Conditions Related to Low Water Pressure

On Sunday, February 28, 2021, on-campus students who temporarily relocated due to the Pine Bluff water crisis will check out of their hotels and return to campus by bus. Students have been made aware by the office of Residential Life, and coordinators who have been staying at the hotels will go door to door Sunday morning to ensure all students are aware and prepared to return to campus. Buses will transport students safely back to campus in small groups between 10 a.m. and 1p.m. Since Friday, Residential Life and Facilities Management have been inspecting each residence hall room and bathroom to ensure functioning HVAC, proper water pressure and functioning showers, toilets, and sinks.

I extend major thanks to our Divisions of Student Affairs and Finance and Administration for working diligently to restore our campus to a livable condition. Thank you, students, for your patience during this process.

Please continue to monitor the Campus Bulletin and UAPB.edu for further updates.
