SHS COVID-19 SURVEILLANCE TESTING DETAILS

Testing: Testing is for UAPB employees and students only. Testing is free.

When: Watch for emails and text messages for dates, times and of updates to the COVID-19 testing.

Where: Typically, we try to utilize the HPER complex but locations may change to make testing more accessible.

Who: The surveillance testing is for individuals who:
1. Do not have COVID-19 symptoms (are asymptomatic); And
2. Have not been in close contact recently with someone who has test positive.

If you have symptoms, please stay home and contact your healthcare provider to determine if you need to be tested.

Pre-register: In order to ensure the most efficient process, we strongly recommend you pre-register at your residential hall or call Student Health Services before arriving.

Additional important details:
- Participation is completely voluntary
- A sample will be collected from the nose (nasal swab, not the deeper nasopharyngeal swab) and tested to see if the virus is present (i.e. if you have COVID-19).
- You will receive your results directly from Student Health Services
- By law, UAPB Student Health Services must report all results to the Arkansas Department of Health.
- Information about what to do if you test positive will be provided on-site. Additional information is also available on our UAPB COVID-19 website.
- As a reminder, test results tell you only whether you have the virus at the date and time you get tested, so students and employees are encouraged to take advantage of all opportunities to get tested.
